### SUMMER ENRICHMENT CAMP

A&K Summer Academic and Physical Fitness Camp focus is on reading, math and science and includes hands on learning activities for individuals and small groups in the morning. Our afternoon fitness and recreation activities include sports, board games, nature walks and weekly field trips.

### BACKGROUND

A&K originally started as a small family day care center in 2003. After careful assessment of our resources and using our more than five years of industry experience, the company decided to expand the scope of its programs by including an educational component. Then, when Prince George's County schools offered charter school choices for parents but did not offer the transportation to some schools, we were positioned to take on the challenge. In the fall of 2007, we became incorporated and obtained our 501(c)(3) nonprofit status. To fully enhance our program, we now provide shuttle services to students, as well as before and after school programs.
